Curriculum (based on CEA guidance of pre-school education, the 6 Areas of Learning)

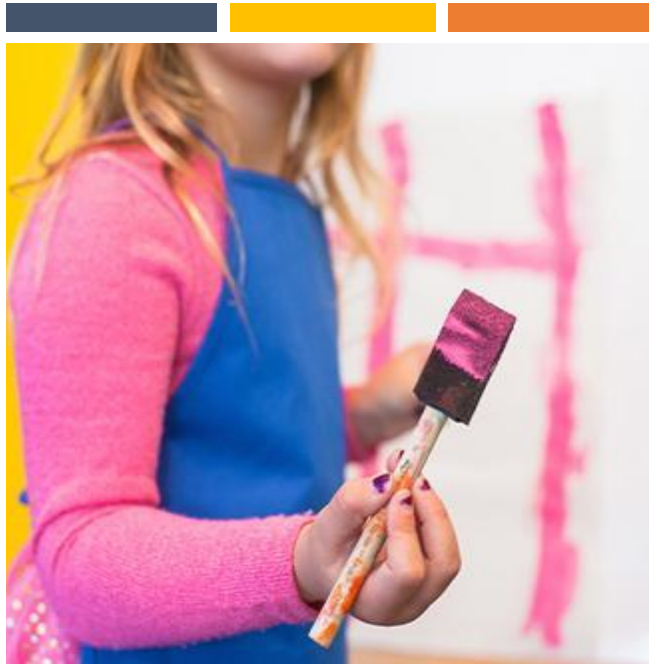

- Personal, Social and Emotional Development
- Physical Development and Movement
- Language Development
- Early Mathematical Experiences
- The Arts
- The World Around Us

Play is an important part of growth and development in each child. It enables them to learn about themselves and their world.

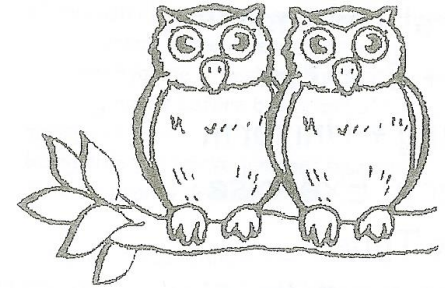

We have a child-led approach where the children can choose for themselves- learning skills, becoming independent and moving forward at their own pace.

They can experience creative, imaginative, manipulative, exploratory, physical and social play under the guidance of our staff who will be there to support and encourage them.

Parents are the first educators of the child and we aim to support and build upon this. We look forward to working in partnership with you the parents/carers, and together we can provide an enjoyable learning experience for your child.
